It's funny how they test it out on a society that has no guns.

Mike Adams, please interview and work with Ana Maria Mihalcea, MD, PhD. She has shown that the vaccines have had nano tech in them for years. For some reason she is being ignored. Please help her spread this information once you have verified her claims.

Can we all get a Class Action Suit against all pharma that wants to bring this unto our people, basically it is our right to survive by using the legal system to fight this. I can see many of us joining this cause

Fantstic interview! I am passing this on. Japan is probably the kick off location and as was stated in the interview, the world may be duped into thinking there is no harm in this until its too late. Pray the curtain will be pulled back.

Anything can happen with prayer and faith in God. I think that is the lesson that God wants us to love Him, Trust Him, and Follow Him in Faith.

With your AI program, a speech to text program, and a human editor/translator his communication would be greatly improved.
